Installation and User Manual

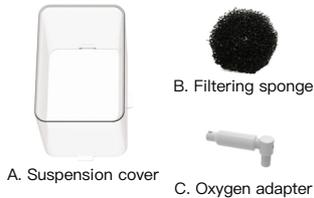

- Step 1: Connect the electric water pump to the water pipe.  
 Step 2: Connect the water pipe to the planting basket.

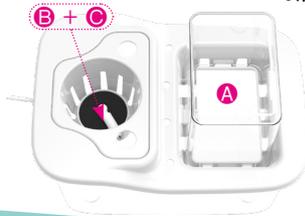

- Step 3: Put the planting basket on the main cover and combine with the main tank.

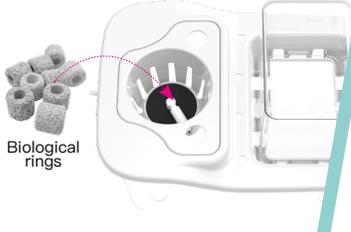

- Step 4: Prepare the following 3 accessories-A,B,C for step 5

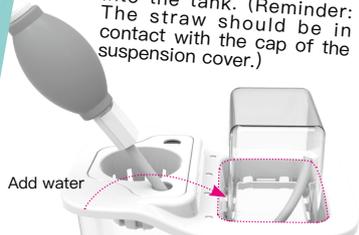

- Step 5: Assemble A, B and C to the main tank as illustrated below.

- Step 6: Place all the biological rings in the planting basket, put the plant into the hydroponic sponges and plant it on the biological rings.

- Step 7: Use hand pump to extract the air inside the suspension cover while adding water into the tank. (Reminder: The straw should be in contact with the cap of the suspension cover.)

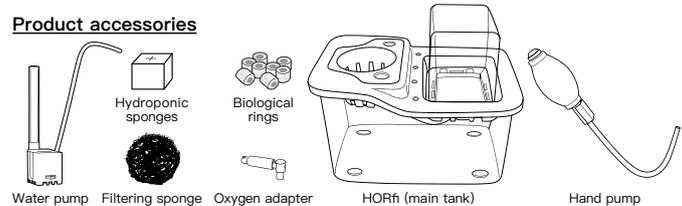

## Hints

1. Follow the instructions of installation manual to assemble the product.
2. Prepare adequate amount of water for the main tank. In order to let the chlorine gas volatiles, turn on HORfi for 24 hours. Add fish after 24 hours (Recommendation: 3 to 5 fish with body size around 3cm long )
3. The purpose of hydroponic sponge is to stabilize the plant. If the plant can stay at a fix position, hydroponic sponges can be kept and use for the next time.
4. The water level of the main tank cannot be higher than the bottom of the plant.
5. Recommend you to feed fish 2 per week for the first 3 months. Each serving standard : food can be finished by fish within 90 seconds.
6. To further understand HORfi , please visit our site:  
<https://wp.me/p9wsbF-4g>
7. If the water pump is not working properly, it may be blocked. Loose the bottom side 4 screws to open the pump cover and clean the blockage.

## Product specifications

Product Name: HORfi	Output voltage: DC 5V-60mA
Power Source: 220V	
Dimension : 234L x 163W x 187H mm	
Weight : 0.62 kg (Net weight)	
Colour : A transparent water tank with a white planting basket
